

13<sup>th</sup> October 2023

Dear Parents/Carers,

This week we celebrated world mental health day, which we celebrated in assembly and in class. According to Place2B, a children's mental health service, up to 1 in 6 children have a diagnosable mental health problem. We know that mental health is just as important as physical health and we need to ensure our children have the knowledge and skills needed to look after their mind as well as their body. In response to this increased need, we have ensured our curriculum teaches these skills explicitly in lessons and our school rules for success are developed to build resilience, kindness and community. We also offer a wide range of counselling and therapeutic interventions, ensure pupils have a voice in how our academy runs, are a healthy relationship school and survey pupils regularly about their mental health and wellbeing.

### New Dinner Menu!
