

10th September 2026

Dear Parents / Carers,

Edward Worlledge Ormiston Academy and UEA Outreach are working together to give pupils in Key Stage 2 the chance to think ahead and explore their future options. Across this academic year UEA Outreach will be engaging with pupils in the following ways...

Year 5 – Future Stars Programme

The Future Stars Programme gives Year 5 pupils the opportunity to learn about university life and discover what it's like to be a university student.

We visit school and run interactive workshops; invite pupils onto campus to explore; and provide many resources to help excite and inspire pupils about their future possibilities. We believe the earlier they start, the brighter their futures can be!

Year 6 – Future Stars: Transition

Transitioning from Primary to Secondary school is a big deal! Our Transition workbook is filled with engaging activities to support Year 6 pupils in widening their horizons and growing their independence.

Activities focus on finding their way around a new school, making new friends, and successfully managing homework.

To support your young person in making the best choices for them in the future, UEA Outreach have put together some useful resources for parents and carers at everwondered.uea.ac.uk/

Best wishes,
UEA Outreach Team
